

## Quick Reference for Presentations

Pre recorded and available to send at any time:

**Brandon's 11-30-20**

We have also set up automated pre recorded presentations. The value in using this software is, your guest will have to register for it and it plays as if it is live. We know when we send prerecorded videos, many times it just sits in their inbox. A live presentation is different. Remember, it is not live but your guest will not know that. Also, it is set up to play every day so this speeds up the duplication process.

The schedule is as follows:

Monday – Friday 8pm

Saturday 9am

Sunday 4pm

In addition, the software will remind your guest before the presentation in case they forget and if they miss it... it will send them a reminder to watch it before 24 hours or it's gone. It is an awesome tool. Currently 72% of people who register, watch the presentation.
